Period: March 1 to July 5, 2024

SOME MEASURES TO PREVENT MOSQUITO BITES

Inspect your house, patio, balcony, terrace, and/or garage and empty any accumulated water in all containers or objects inside or outside your home.

Protect yourself and your family from mosquito bites, use insect repellent.

Wear long-sleeved clothing when you are outdoors.

Use mosquito nets for sleeping (especially for infants, children, pregnant women, and bedridden individuals).

Install or repair wire mesh screens on doors and windows.

SEEK MEDICAL ATTENTION IMMEDIATELY

if you experience any of these symptoms after the fever subsides:

Somnolence

Severe abdominal pain

Persistent vomiting

Restlessness or fatigue

Dizziness or fainting

Bleeding gums or nose
