General Information

Every month there is a process that evaluates the beneficiaries that have been identified as having a HCHN Condition in order to assign them with the corresponding Rate Cell.

This process uses as input the CLM files that are evaluated by the ASES actuary in order to identify the last qualified encounter validating a HCHN category for a member. All details for this procedure are specified in the HCHN Standard Operating Procedure (HCHN SOP).

This document describes the Layout for the Files that the Actuary sends to ASES.

The information on this document is subject to continuous revisions and modifications that will be made available to all parts involved.

File Layout

File Naming Convention

File Naming Convention	Part	Meaning
HCHNMIYYYYMMDDSS.txt	HCHNMI	static file code
	YYYY	Evaluation Year
	MM	Evaluation Month
	DD	Evaluation Day
	SS	Version Sequence
	.txt	file extension

File Content

This file is exported using a Pipe (|) delimited format.

Id	Field	Data Format	Data Length	Description
1	memberid	VARCHAR2(20)	20	Member MPI
2	cancer_last_date	DATE	6	Last service date for a qualified encounter for HCHN Category = Cancer
3	renal_last_date	DATE	6	Last service date for a qualified encounter for HCHN Category = Renal
4	cardio_last_date	DATE	6	Last service date for a qualified encounter for HCHN Category = Cardio
5	diabetes_last_date	DATE	6	Last service date for a qualified encounter for HCHN Category = Diabetes
6	lowcardio_last_date	DATE	6	Last service date for a qualified encounter for HCHN Category = Low Cardio
7	pulmonary_last_date	DATE	6	Last service date for a qualified encounter for HCHN Category = Pulmonary
8	cancer_last_claim	VARCHAR2(30)	30	Last Encounter Id for HCHN Category = Cancer
9	renal_last_claim	VARCHAR2(30)	30	Last Encounter Id for HCHN Category = Renal
10	cardio_last_claim	VARCHAR2(30)	30	Last Encounter Id for HCHN Category = Cardio
11	diabetes_last_claim	VARCHAR2(30)	30	Last Encounter Id for HCHN Category = Diabetes
12	lowcardio_last_claim	VARCHAR2(30)	30	Last Encounter Id for HCHN Category = Low Cardio
13	pulmonary_last_claim	VARCHAR2(30)	30	Last Encounter Id for HCHN Category = Pulmonary
14	cancer_first_date	DATE	6	First service date for a qualified encounter for HCHN Category = Cancer
15	renal_first_date	DATE	6	First service date for a qualified encounter for HCHN Category = Renal

Id	Field	Data Format	Data Length	Description
16	cardio_first_date	DATE	6	First service date for a qualified encounter for HCHN Category = Cardio
17	diabetes_first_date	DATE	6	First service date for a qualified encounter for HCHN Category = Diabetes
